on Science and Engineering

CURRENT TRENDS ON SCIENCE AND ENGINEERING FOR SUSTAINABLE SOCIETY

7th-9th August 2023

KEYNOTE SPEAKERS

Prof. Kenji Mishima
Director, Composite Material Research
Centre and Professor at the Department of
Chemical Engineering
Fukuoka University
Japan

Prof. Rajesh Piplani
School of Mechanical and Aerospace Engineering,
Systems and Engineering Management division
Nanyang Technological University
Singapore

Assoc. Prof. Ahad Ali
Mechanical, Robotics, and Industrial Engineering
Lawrence Technological University
Michigan, USA

Prof. Dr. Maizer S. Nahdi, M. Si.
Biology, Faculty of Science and Technology
UIN Sunan Kalijaga Yogyakarta
Indonesia

Prof. Muh. Nizam, S.T., MT., Ph.D
Center of Excellence for Electrical Energy Storage Technology
(CEE-EST)
Universitas Sebelas Maret
Indonesia

Assoc. Prof. Dr. Kitichate Sridith
Department of Biology, Faculty of Science
Prince of Songkla University
Thailand

Syahrul Azwan bin Sundi, Ph.D., P.Tech, Ceng. MIMechE
Manufacturing Eng. Tech. Department
Faculty of Mechanical & Manufacturing
Engineering Technology (FTKMP),
Universiti Teknikal Malaysia Melaka (UTeM)
Malaysia

INVITED SPEAKERS

Bernardi Pranggono, B.Eng., M.Dig.Comms, Ph.D, FHEA, SMIEEE
Computer Network Engineering
Shafiqul Hakeem University
United Kingdom

Noor Saif. M. Mussafi, M.Sc., Ph.D
Mathematics, Faculty of Science and Technology
UIN Sunan Kalijaga Yogyakarta
Indonesia

Dr. Agung Fatwanto, M.Kom
Informatics, Faculty of Science and Technology
UIN Sunan Kalijaga Yogyakarta
Indonesia

Martianus F. Ezerman, Ph.D
Division of Mathematical Sciences
Nanyang Technological University
Singapore

ChM Dr. Faridah Abu Bakar
Department of Physics and Chemistry
Faculty of Applied Sciences and Technology
Universiti Tun Hussein Onn Malaysia
Malaysia

Ir. Khusna Dwijayanti, M.Eng., Ph.D, IPM
Industrial Engineering, Faculty of Science and Technology
UIN Sunan Kalijaga Yogyakarta
Indonesia

Dr. Taqibul F. Niyartama, M.Si
Physics, Faculty of Science and Technology
UIN Sunan Kalijaga Yogyakarta
Indonesia

CALL FOR PAPERS

The International Conference on Science and Engineering is an event hosted by Faculty of Science and Technology Sunan Kalijaga State Islamic University Yogyakarta. The 6th ICSE will be held on 7th to 9th August 2023 at the Central Academic Building's Mini Auditorium of Sunan Kalijaga State Islamic University Yogyakarta, Indonesia.

"Current Trends on Science and Engineering for Sustainable Society" has been chosen as the theme for the conference, with a focus on the latest research and trends, as well as future outlook of the field of science and engineering for a better environment, not damaging or overusing resources, and therefore able to leave a bountiful earth that future generations can continue to inhabit. This means taking into account both the imperatives present and those of the future, such as the preservation of the environment and natural resources or social and economic equity.

However, this is not easy to achieve. Thus, through this conference, we want to invite all researchers to discuss current trends, issues, and share innovative ideas to achieve sustainable society according to the fields of science and engineering. Moreover, theme discussed at the ICSE 2023 in line with the Sustainable Development Goals (SDGs) adopted by the United Nations to tackle various kinds of problems, from poverty to environmental issues. The aim is to provide an excellent international forum for sharing knowledge and research outcomes in theoretical and practical aspects as well as industrial applications.

TOPICS

- Sustainability
- Technology: general issues
- Engineering: general
- Industrial chemistry and chemical engineering
- Materials science
- Energy technology and engineering
- Energy efficiency
- Waste treatment and disposal
- And other related topics
